

Pulak Debasish Prusty

I'm a final year B.Tech student majoring in Computer Science and Engineering. I'm an Android Developer and love everything around android technology. I started learning Android development about a year ago and mostly code in Java and learning Kotlin. I've been a mentor for Android and Java courses at Internshala as part of my internship. I have a strong grit to learn and develop my skills while working with like-minded people in collaboration.
